Period and delivery

January 2027 results, finalized February 10 and delivered February 12 at 10 am New York time. Version 1.0 remains operative. No amendment or waiver is adopted. Earlier measurements stay in history.

January observations

USD millions except members and percentages.

Measure	January
Opening members	95,866
New member joins	4,000
Member departures	3,355
Closing members	96,511
Recognized monthly dues	2.404712
Other service revenue	0.250000
Total revenue	2.654712
Current dues collection rate	97.00%
Collections against current dues	2.332571
Opening arrears collected	0.112255
Closing collectible arrears	0.408906
Fictional royalty expense	0.185830
Club operating expense	1.900000
Central operating expense	0.207500
EBITDA	0.361383
Interest paid	0.135000
Estimated cash tax paid	0.066250
Capital expenditure	0.100000
Opening Unrestricted Cash	6.818772
Closing Unrestricted Cash	6.919018

Total bank cash is \$7.919018m, including the same restricted reserve. Debt remains \$18.0000m. Interest was paid January 29. Cash-tax installments and capital expenditure are included above. The receivables and member definitions have not changed.

Verified operating actions

January's 4,000 joins and 3,355 departures produce 96,511 closing members, below the original 100,000 assumption. Current-dues collections improve to 97%, but prior arrears recovery remains a separate cash source. A revised scheduling plan reduced club expense to \$1.9m. No new clubs or price changes explain the recovery. These observations do not establish sustained retention or collection improvement.

Revised forecast bridge and remaining liability

The April 2 estimate rises from \$4.2m to \$6.6m. The \$2.4m change consists of a \$1.2m equipment payment deferral, \$0.6m higher net dues and arrears collections, and \$0.6m canceled uncommitted campaign spending. The collection bridge includes January's actual starting-cash effect; do not add that effect again. A signed fictional vendor confirmation dated February 4 moves the \$1.2m equipment payment from March 26 to May 28, within the permitted 180-day supplier-credit term. It does not forgive the liability or reduce equipment cost. The deferral falls outside this forecast ending May 14; the May 28 obligation remains a specific liquidity concern. Campaign cancellation confirmation is dated February 5 and carries no termination fee.

This is the first delivered forecast with all weeks at or above \$6.5m. The prior February 5 refresh had a \$6.3m low. C05 requires a second qualifying forecast at least seven days later before weekly reporting ends; the later May 28 payment also remains relevant. Friday updates dated January 22, January 29 and February 5 were delivered on time. February 12 is the next refresh. No distribution, new borrowed money or restricted expansion commitment was entered. The lender must assess observed improvements, future estimates and remaining obligations separately.
