

10 Club Repair Commitments and Payment Schedule

Document PLNT-10 | Available 2027-02-19

Prepared by Fictional borrower facilities and procurement team | Borrower: Planet Fitness Demo Club Operator LLC

SYNTHETIC DEMO. All events, figures and confirmations below are invented. Planet Fitness Demo Club Operator LLC has no asserted affiliation, financing or guarantee from Planet Fitness, Inc..

Notice and availability

This report assembles the material terms of new fictional business confirmations received February 16-18, 2027. Available February 19, 2027 at 10 am New York time. The terms below concern Planet Fitness Demo Club Operator LLC; the real public company is not a party. Copies of the confirmations are represented by their material terms and reference IDs in this report; no separate attachment is needed for this simulation.

Confirmed change

Facilities report PLNT-FAC-0216, received February 16, identifies urgent ventilation and water-damage repairs at five existing clubs. Accepted repair orders dated February 17 require \$0.5m on March 12 and \$0.5m on April 9. These are ordinary repairs to existing sites, not new-club expansion. The costs and cash payments were absent from report 09. Management treats them as operating expense with no EBITDA add-back; cash-tax installments remain unchanged in this forecast.

A signed fictional landlord reimbursement confirmation, PLNT-LAND-0218, provides \$0.8m payable on June 18 after these repairs. It is a future receivable, not current eligible cash. The \$1.2m equipment payment deferred to May 28 in report 09 remains payable on that date and is included once in the extended forecast. The earlier thirteen-week forecast ended May 14 and did not show that outflow.

Operational context

Contractors require the stated payment dates to maintain the repair schedule. The equipment vendor declined a further deferral on February 18. Management has included the prior campaign cancellation and collection improvement; neither can be counted again. No additional finance or owner contribution is committed.

The \$1.2m equipment deferral is unchanged from report 09. Repair costs and the later landlord reimbursement are separate new items; the reimbursement is not a waiver of the repair invoices.

Information available at this date

This report establishes the changed dates and amounts, not future bank balances. The last finalized cash observation supplied in report 09 is January 31: freely available cash \$6.9190m, restricted deposits \$1.0000m and debt principal \$18.0000m. Subsequent collections, payments and month-end balances require treasury records. No later actual results are included here.
